

School Objectives

The objectives of St. Catherine's School are:

- To develop a community of faith based on prayer and the teachings of Christ in the Gospel.
- To educate the whole child as a unique individual, enabling them to attain their full potential as a Christian and take their rightful place in life.
- To instil a deep respect for self and others.
- To help parents educate their child.
- To facilitate co-operation between the parish, school, and home.

St. Catherine's School functions as an extension of the family and parish community in nurturing our Catholic faith. In the words of Saint Catherine of Siena, "I have nothing to give, but what you have given me."
